ArmourLight®

Vandal Resistant Class II Lighting
Exceptionally High Quality

The latest in LED Lighting from J&L

Technical advances in LED lighting technology has allowed us to create the very best LED Elevator Lighting, offering exceptionally high efficiency, low energy use and low maintenance.

Armour Light is a complete lighting solution providing high levels of lighting in both normal operation and emergency use. Vandal resistant to Class II with an armoured glass lens, Armour Light has been designed for simple installation to both new lift cars or retro-fitted to existing lift cars.

The heavy duty power supply unit has an inbuilt, emergency maintained supply which will power two of the lights fitted for 4 hours in the event of a main power failure.

The LED Lights come complete with collars that are available in various finishes, Stainless Steel, Gold or White.

The innovative fixing arrangement makes installation quick and simple.

Armour Light boasts
Class A energy efficiency.
